Certificate of Warranty

Fatra, a. s., tř. T. Bati – 1541, 763 61 NAPAJEDLA, Czech Republic

Fatra, a. s. (joint-stock company) takes over a warranty as a producer for the waterproofing roofing membranes

FATRAFOL 810/V 1.5

15 YEAR MATERIAL WARRANTY

In case of a leak occurring within the time of fifteen years being evidential deduced from a defect of the FATRAFOL roofing membrane then the deliverer will deliver a proper volume of the material free of charge for removing a defect due to the leaks.

The warranty period is starting with a time when the waterproofing work with the FATRAFOL roofing membrane has been finished and the realization firm handed-over it to the customer. But the warranty period is starting on the first day of the 6th calendar month from a time of the material being handed-over to the realization firm by the producer or distributor. The warranty period is lasting just as the warranty period being provided by the realization firm to the customer for the realization of the waterproofing works, but not longer than the warranty time of 15 years. This warranty will be not extended due to making the repairs. Such a warranty is going over also on the eventually successors.

There are some conditions of an exercise of this warranty obligation:

1. FATRAFOL roofing membrane processing according to the fundamentals of the construction- and technology instructions of the FATRAFOL-S waterproofing roofing membrane system, being issued by the producer and valid at the time of the providing the waterproofing works.
2. In case of a discovery of any leaks during the warranty period, such a matter of fact will be noticed in writing to the seller or to the producer.
3. There should be enabled a checking of the leaks at the roof being concerning it.

The leaks arisen out of a mechanical activity or due to abnormal physical, chemical and other different influences; unsuitable or insufficiently designed and provided roof construction do not come under this warranty obligation.
